

Ice cream made with Lumea flavoured powdered sugar.

Ice cream made with Lumea flavoured powdered sugar.

Supplies:

- 600 ml whipped cream(unwhipped)
- 200 ml condensed milk
- 100 grams of lumea flavoured powdered sugar

Preparation method:

Place all ingredients in a mixing bowl and mix until the mixture is thick and creamy.

Place the mixture in a freezer container and place in the freezer for about 8 hours.

Extra tip: only lick the spatula/spoon after you have already put the mixture in the freezer, otherwise I'm afraid you won't have much left to put in the freezer
